EXPERIENCE

Office Depot UK → Senior Front End Developer
June 2015 – present

Lead a team of Front End Developers in supporting the building and enhancing of Office Depot's new Hybris based e-commerce platform. Responsibilities include feature development, establishment of coding principles and standards and improving code quality while ensuring unit test coverage.

Technologies
Hybris, CanJS, Handlebars JS, Grunt, Phantom JS, Jasmine, jQuery, Apache Velocity, SASS, Grunt

Cognizant Technology Solutions UK Ltd. → Front-end Developer
August 2014 – May 2015

Responsible for developing web pages using HTML5/CSS3/JS, preparing image assets from source files, helping back-end developers with integration and writing unit tests for my deliverables for clients of Cognizant.

Services provided on behalf of Cognizant (consultancy):

Apple Computers UK Ltd., November 2014 – April 2015

Implementing front end components of new features of online store and supporting reduction of backlog of improvements to online store

Telefonica d/b/a O2, August 2014 – October 2014

Migrated existing content into custom CMS, implemented marketing initiative assets in CMS and prepared new templates for CMS and e-mail marketing.

Technologies
CanJS, Mustache JS, Grunt, Phantom JS, Jasmine, jQuery (Apple)
Apache Velocity, SASS, Grunt, jQuery (O2)

eBay Intl. Marketing GmbH → Web Developer
April 2009 – July 2014

Supported EU marketing efforts through the creation of microsite portals and promotional pages, maintained existing static pages, assisted and lead procedure and technical standard upgrade efforts and assisted other regions' similar efforts.

Technologies
HTML (4 and 5), CSS (2 and 3), Javascript, jQuery, Clearcase, Git, Drupal, Adobe Photoshop and Dreamweaver, Clearquest

Zappos.com → Front End Developer
January 2008 – December 2008

Maintained portfolio of Zappos websites, posted content updates, created new boutique sites and supported future business objectives.

Technologies
HTML 4, CSS 2.x, Freemarker, Adobe Photoshop, Jive Software community products

Creative Services and Marketing → Web Developer Assistant
May 2005 – March 2006

My Alma Mater's in house creative agency. Transformed website layouts into functional code and graphics, assisted web developer in maintenance tasks and collected or verified information for websites.

Technologies
HTML 4, CSS 2.x, CVS, Adobe Photoshop

Sub-Board I, Inc. → Web Designer
September 1999 – November 2009

Student owned and operated non-profit at my Alma Mater. Managed the Sub-Board I Web site, designed new parts of the site, coordinated the presentation of new content and devised methods to save money by using digital information transmission technologies in place of more traditional methods.

Technologies
HTML 4, CSS 2.x, Adobe Photoshop and Dreamweaver, RealMedia server, Perl

Freelancing
May 1996 – April 2002, 2009

Created and maintained online presence of Heilpädagogisches Seminar (Teachers' college in Zürich, Switzerland) and Pestalozzihaus Räterschen (Boarding school near Winterthur, Switzerland)

Technologies
HTML, CSS, Adobe Photoshop and Dreamweaver, Drupal 6, Menalto Gallery
